IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
P = Indicates that there is greater that 25% difference for detected Pesticides/Aroclor results between the two GC columns
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
H = Indicates that the element was found in the associated blank as well as in the sample and the value is greater than or equal to the reporting limit

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
H = Indicates that the element was found in the associated blank as well as in the sample and the value is greater than or equal to the reporting limit

Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
H = Indicates that the element was found in the associated blank as well as in the sample and the value is greater than or equal to the reporting limit

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
H = Indicates that the element was found in the associated blank as well as in the sample and the value is greater than or equal to the reporting limit
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface.

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
H = Indicates that the element was found in the associated blank as well as in the sample and the value is greater than or equal to the reporting limit
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface
IGWSCC standard applied to 2,4/2,6-Dinitrotoluene is the IGWSCC standard for 2,4-Dinitrotoluene

IGWSCC = Impact to Groundwater Soil Cleanup Criteria
RDCSCC = Residential Direct Contact Soil Cleanup Criteria
NRDCSCC = Non-Residential Direct Contact Soil Cleanup Criteria
Bold = Indicates Concentration Exceeds NJ Soil Cleanup Criteria (NJSCC)
U = Indicates that the compound was analyzed for but not detected, number indicates the detection limit
J = Value is less than the reporting limit, but greater than zero
N = Flashpoint not observed, heated to specific limit
B = Indicates that the compound was found in the associated blank.
* = Value obtained from a 1:5 dilution
+ = Value obtained from a 1:10 dilution
D = Indicates compound was found in analysis as a secondary dilution factor
R = Rejected based on data validation
E = Indicates that the concentration exceeded the calibration range of the instrument
NR = Not Reported
NS = No Standard
ft. = Feet below ground surface

Table 5-13E

Analytical Results
Miscellaneous/Offsite Area - Metals
Phase I - Site Investigation
Kenvil Works Facility, New Jersey
