**RULES, REGULATIONS GOVERNING ROAD OPENINGS, RIGHT OF WAY
OCCUPANCY, AND STORAGE PERMITS**

Adopted by the Morris County Board of County Commissioners December 5, 1985,
last amended September 27, 2017

1. It shall be unlawful for any person, firm, corporation or municipality to make any excavation in or tear up the surface for any purpose whatsoever of any roadway or road right of way which is under the jurisdiction of the County of Morris without a written permit for road openings or right of way occupancy first having been obtained from the County Engineer as hereinafter provided.
2. Any and all applications for a permit for road openings or right of way occupancy on any roadway or road right of way, the maintenance of which is chargeable to the Board of Chosen Freeholders of Morris County, must be made in writing. Said application is to state the purpose of such application, namely: sewer, water, gas, telephone or any other purpose. Permits for road openings or right of way occupancy do NOT carry any right to make sewer, water, gas or other connections. A separate permit to make such connections must be obtained from proper officials having jurisdiction therefore. **No permit will be issued to open any roadway or road right of way three years after the date the roadway or road right of way was paved.**
3. Individuals or entities which are granted a permit for road openings on or in any roadway or road right of way may be required to enter into a Right of Way Agreement with the County, which shall, among other requirements, contain insurance and indemnification obligations. Regardless of whether the County requires such a Right of Way Agreement, individuals or entities granted a permit for road opening shall comply with the County's insurance and indemnification provisions set forth in the Application for Road Opening Permit. Any and all individuals or entities which are granted a permit for right of way occupancy on or in any roadway or road right of way shall enter into a Right of Way Occupancy Agreement with the County, which shall, among other requirements, require compliance with the insurance and indemnification obligations set forth within.
4. Any and all individuals or entities which are granted a permit for road openings and/or a permit for right of way occupancy on or in any roadway or road right of way ("Permittees") shall make any and all arrangements with adjacent property owners for the removal or relocation of any shrubs, fences, structures, trees or embankments, etc., whether they are in the roadway or road right of way, or on private property, necessary for Permittees'
